Intermediate

Skills

- **Technical Skills:** Python
- **Soft Skills:** Communication, Leadership, Team work, Network, Responsible, Management, Creative Thinking.

Projects

The Regumate

Description: Zoom Automation Meeting is a feature or process where certain tasks within a Zoom meeting are automated to enhance efficiency and streamline operations. This can include automated meeting scheduling, participant invitations, agenda distribution, recording initiation, and post-meeting follow-ups. It aims to reduce manual intervention and increase productivity during virtual meetings
